Food Brought into La Petite Academy

La Petite Academy's first and foremost priority is to ensure that we provide a healthy and safe environment for the children that are in our care.

Therefore, it is our policy that when food of any kind is brought into La Petite Academy (including baby food, formula, birthday treats, etc.) the teacher in your child's classroom is responsible for inspecting the food. They will look at the expiration date, serving directions, nutritional value, etc., to ensure that the food we serve your child is healthy and safe. If food does not meet nutritional value, food will be supplemented in order to meet daily recommendations. In addition, all food that will be given to the children must be commercially prepared and come in an unopened package.

Please make sure that any food, including baby food, formula and special dietary food for medical issues, etc., that you bring into La Petite Academy is labeled with your child's first and last name and dated.
