This notice describes how medical information about you may be used and disclosed and how you can get access to this information. Please review it carefully.

OUR RESPONSIBILITIES

St.Vincent Mercy Hospital takes the privacy of your health information seriously. We understand the importance and sensitivity of your health information. We are required by law to maintain your privacy and to provide you with this Notice of Privacy Practices ("Notice"). We are required to abide by the terms of the Notice that is currently in effect.

HOW WE MAY USE AND DISCLOSE YOUR HEALTH INFORMATION

We protect the privacy of your health information because it is the right thing to do. We use your health information (and allow others to have it) only as permitted by federal and state laws. When we care for you, we gather and create some of your health information. This Notice includes examples in each category below of how we will use and share your information. Not every use or disclosure is listed below; however, all permissible uses and disclosures will fall within one of the categories.

- **For Treatment.** We use information about you to understand your health condition and to treat you when you are sick. We may share your health information with doctors, nurses, aids, technicians or other employees who are involved in taking care of you. We might use your health information to manage or coordinate your treatment, health care or other related services. We might share your medical information with your physician or other health care provider who is providing treatment to you, whether or not we are involved with your treatment at the time. For example, a doctor treating you for a broken leg may need to know if you have diabetes because if you do, this may impact your recovery. We may receive and share prescription information to help you avoid harmful drug interactions. Different departments of the facility may also share health information about you in order to coordinate different things you might need such as medications, x-rays, laboratory work, etc.

THE SPIRIT OF CARING®

- **For Payment.** To receive payment for our services, we may send your health information to an insurance company or other third party. We may also disclose your medical information to another health care provider or payor of health care for their own payment activities. For example, your insurance company may request information about your surgery and we must provide that information to obtain payment. The physician who reads your x-ray may need to bill you or your insurance company for reading your x-ray; therefore, your billing information may be shared with the physician who read your x-ray.
- **For Health Care Operations.** We may use and disclose your health information to enable St. Vincent Mercy Hospital to make sure you receive competent, quality health care, and to maintain and improve the quality of health care we provide. We may assess the care and outcomes in your case and others like it and then use the results to continually improve the quality of care for all patients we serve. We may also provide your health information to various governmental or accreditation entities such as the Joint Commission on Accreditation of Healthcare Organizations to maintain our license and accreditation. For example, we may combine health information about many patients to evaluate the need for new services or treatment. We may combine health information we have with that of other facilities to see where we can make improvements.
